## Orca Chopped Strand Mat:

Orca Chopped Strand Mats consist of chopped glass fibers bonded together using a polyester powder. The mats are designed to be compatible with unsaturated ortho polyester, iso polyester, vinyl ester and a variety of other resins. Orca Chopped Strand Mats are used as backing for gel-coat and standard laminate reinforcements for most contact molding (hand lay-up). Applications include boats, surfboards, panels, tanks and other diverse applications. Orca Chopped Strand Mat is used to provide superior performance in a broad range of end-use markets such as marine, transportation, recreation, construction, consumer and anti-corrosion.

Orca Chopped Strand Mats are available in many different weights and widths up to 100". Minimum quantity required on custom widths and weights.

Standard weights for faster delivery listed below:

- 3/4oz
- 1oz
- 1.5oz
- 2oz
- 3oz

### Packaging

Each individual roll is wound on a paper core, wrapped with clear plastic and boxed for transportation..

### Storage

ORCA-Chopped Strand Mats should be stored dry in its original packaging, in a well ventilated area away from direct light.
