## Orca Cloth

Orca Fabric reinforcements are designed to provide desired properties such as , strength, resilience, flexibility, light weight and resistance to weather, heat, fire and corrosion. Available in a variety of styles weaves, roll widths and fabric weights, Orca glass fabrics are designed to meet high standards for a variety of Marine and Industrial applications. Stringent quality control guarantees consistent performance over a wide range of uses. Most fabrics are finished with a multi-functional silane allowing use with polyester, vinyl ester and epoxy resins. Other finishes are available on minimum 5,000 yard orders. Please contact an Orca Composites representative for min quantities and availability.
